ABOUT

Born in Cali. *Based in Cartagena.*

Three letters, one floor. RHG is a DJ and musical curator whose sound blends rhythm, culture and energy into immersive experiences.

His style moves between **House**, **Indie Dance**, **Deep House**, **Electro** and **Afro House**, creating sets that connect body and soul on every dancefloor. Deep grooves, bouncing basslines and percussive energy, played with the patience of someone who learned to read a crowd at sea level.

He is resident DJ at **Casa en el Agua**, the floating hostel in the Colombian Caribbean where music meets the ocean during sunset sessions that have become a rite of passage for travelers crossing the coast.

His journey has taken him across Guatemala, Mexico and Colombia: mountain lakes, jungle festivals, rooftops and beach floors, including two consecutive editions opening day two of **Baile Sagrado**. Co-founder of **La Esquina Latina**, a studio and cultural movement that celebrates Latin American identity through music.
